## TUGAS ABSTRACT CLASS & INTERFACE

### Latihan

```
package interfaces;
```

```
interface Mobil {  
    public void setMerk(String merk);  
    public String getMerk();  
}
```

```
package interfaces;
```

```
interface Mesin extends Mobil {  
    public void setNoMesin(String noMesin);  
    public String getNoMesin();  
}
```

```
package interfaces;
```

```
public class Mobil1 implements Mesin {  
    private String merk;  
    private String noMesin;  
  
    @Override  
    public void setMerk(String merk) {  
        this.merk = merk;  
    }  
  
    @Override  
    public void setNoMesin(String noMesin) {  
        this.noMesin = noMesin;  
    }  
  
    @Override  
    public String getMerk() {  
        return merk;  
    }  
  
    @Override  
    public String getNoMesin() {  
        return noMesin;  
    }  
}
```

```
package interfaces;
```

```
public class Main {  
    public static void main(String[] args) {
```

```

Mobil1 m1 = new Mobil1();
m1.setMerk("Ford");
m1.setNoMesin("01010");
System.out.println(m1.getMerk());
System.out.println(m1.getNoMesin());
}
}

```

## Output:
